D.3.2. REALLOCATION OF PLACES RELEASED THROUGH "DOUBLING-UP"

It is a fundamental principle of this Qualification System that an athlete may only acquire one (1) athlete quota place for their NOC regardless of how many events the athlete competes in. Once an athlete obtains an athlete quota place they are not eligible to compete in any further Olympic Qualification Competitions.

This section sets out how athlete quota places will be reallocated where an athlete has qualified for more than one quota place as a result of their performance at the Global Qualification Competitions.

D.3.2.1 **First Step – Qualification in the same boat class over two distances**

Where an athlete qualifies for two (2) athlete quota places in the same boat class but for two (2) different distances (Men's K1 1000m and K1 200m; or Women K1 500m and K1 200m) their NOC will be allocated the place in 1000m for men or 500m for women.

The remaining athlete quota place in the 200m distance will be reallocated to the next highest ranked NOC in the 200m distance, not yet qualified.

QUALIFICATION SYSTEM – GAMES OF THE XXXII OLYMPIAD – TOKYO 2020

D.3.2.2 **Second Step – Qualification in different boat classes at the World Championship**

Where an athlete qualifies for more than one (1) athlete quota place in different boat classes (i.e. K1, K2, K4 or C1 and C2) at the 2019 ICF Canoe Sprint World Championships the athlete's NOC will be allocated only one (1) athlete quota place. This shall be an athlete quota place in the event with the largest boat class out of the events in which the athlete qualified a quota.

The remaining athlete quota place(s) will be reallocated using the following procedure:

- i) On completion of the 2019 ICF Canoe Sprint World Championships all remaining athlete quota places which have been released as a result of athletes qualifying for more than one athlete quota place in different boat classes, will be grouped together in four separate pools as follows:
 - a. Men Kayak events;
 - b. Female Kayak events;
 - c. Male Canoe events; and
 - d. Female Canoe events.
- ii) The remaining athlete quota places in each of the Male and Female Kayak pools will be reallocated to the highest ranked NOCs not yet qualified in the relevant K4 event at the 2019 ICF Canoe Sprint World Championships, to enable those NOCs to fill the K4 boats.
- iii) When a K4 boat cannot be completely filled with the remaining athlete quota places, then the remaining athlete quota places from the Male and Female Kayak pools will be reallocated to the highest ranked NOCs not yet qualified in the relevant K2 event at the 2019 ICF Canoe Sprint World Championships, to enable those NOCs to fill the K2 boats.
- iv) The remaining athlete quota places in each of the Male and Female Canoe pools will be reallocated to the highest ranked NOCs not yet qualified in the relevant C2 event at the 2019 ICF Canoe Sprint World Championships, to enable those NOCs to fill the C2 boats.
- v) Following the application of this procedure, if it is not possible to completely fill a K4, K2 or C2 boat with the athlete quota places, then:
 - a. the remaining Kayak athlete quota places will be given to the next highest ranked NOC not yet qualified in the longest distance K1 event (Men 1000m, Women 500m); and
 - b. the remaining Canoe athlete quota places will be given to the next highest ranked NOC not yet qualified in the C1 event (Men 1000m, Women 200m) from the 2019 ICF Canoe Sprint World Championships.

D.3.3.3. A minimum of three (3) NOCs must contest each athlete quota place at the Continental Qualification for the event to be eligible. If there are not three (3) or more NOCs in an event, then the athlete quota place(s) will be reallocated to the next highest ranked NOC, in that event, not yet qualified at the 2019 ICF Canoe Sprint World Championships, irrespective of the continent.
