

Alpine Skiing

Team Leaders' Guide

Welcome

On behalf of the Beijing 2022 Alpine Skiing team, it is a pleasure to extend a warm welcome to all the athletes and team officials in Beijing.

With our commitment to deliver a green, inclusive, open and clean Games, the Yanqing National Alpine Skiing Centre naming "Pearl on the Crown", is the one of the most difficult construction project among all competition venues. Relying on the natural mountain form of Xiaohaituo Mountain in Yanqing District, the National Alpine Skiing Center provides 7 courses for different events with a total length of 21 kilometers and a vertical drop of 800 meters.

Despite the challenges we are facing due to the global COVID-19 pandemic, I believe the spirit of sport will heal, inspire and encourage all the participants and audience during the Olympic Winter Games Beijing 2022. You may find essential information about your discipline, the venue and all the services and facilities in this Guide that have been prepared to support you during your time in Beijing.

We look forward to your continuous support in helping us stage a joyful rendezvous upon pure ice and snow. With its rich history and sophisticated modernity, traditional culture and modern civilization, Beijing stands ready to become the first city in the world to host both the Summer and Winter editions of the Olympic Games, and to welcome friends from all over the world.

Good luck!

Zhenguo ZHENG Sport Manager of Alpine Skiing Beijing 2022

Olympic Identity and Accreditation Card (OIAC)

Beijing 2022 Accreditation Card Sample

Access Codes and Symbols

Venue codes and symbols printed on the front side of the card indicate access to competition and/or non-competition venues. A full description of the codes is available on the reverse side of the card.

Accreditation zones are secured areas reserved only for accredited persons who have access to corresponding zones in which they perform their Games-time functions. Venue zone access rights are printed on the OIAC using colour and alphanumeric codes. The accreditation zones inside the competition venues and Olympic Villages are as follows:

Access Code	Accessible Areas
BLUE	Field of Play (FOP) Operational areas (BOH) General circulation areas (Front of House [FOH], BOH)
RED	Operational areas (BOH), General circulation areas (FOH, BOH)
WHITE	General circulation areas (FOH)
"2"	Athlete preparation areas
"4"	Press areas
"5"	Broadcast areas
"6"	Olympic Family areas
"R"	Residential Zone (RZ) of the Olympic Village

Although included in this zone list, some particular areas inside the venue may be considered and managed as restricted areas, and the OIAC itself does not grant access to these areas.

Supplementary Access Control Devices (SACD), such as stickers, passes, bibs, armbands and tickets, will be required to enter the Field of Play, the Mixed Zone and the Ceremony areas.

Spectating Athletes and Team Officials Policy

Same Discipline Athletes (SDA) & Different Discipline Athletes (DDA)

Spectator tickets will only be available to residents of China's mainland who meet the conditions of COVID-19 control. Athletes and Team Officials will not have access to ticketed spectator areas.

Access to the accredited areas such as Same Discipline Athletes (SDA) seating or stand area is allowed upon the presentation of an OIAC. SDA are allowed to utilise TA service at the Yanqing Olympic Village TA Transport Mall to the venue. However, priority will be given to competing/training Athletes and their Team Officials. For Different Discipline Athletes (DDA), tickets will be provided for spectating.

Transport

*Transport information in this Chapter and transport service maps in the Appendix were only for reference by the time of this Guide published. Please refer to the updated information in the *Athletes and Team Officials Transport Guide* which will be published in January, 2022 by the Beijing 2022 Transport Service Team.

TA Transport System

The operation date of the TA transport system for Athletes and Team Officials is from January 27 after the opening of Yanqing Olympic Village. The system includes transport services between the Olympic Villages and competition and training venues in each zone; transport services between the Olympic Villages; transport services for Additional Team Officials; cross-zone transport services.

Olympic Village Transport

Olympic Village NOC Parking Lot

Each Olympic Village (OLV) will set up parking lots for NOC. Yanqing OLV parking lot is located in the northwest of Yanqing OLV.

Cross-zone Shuttle Bus

Beijing 2022 will provide TA transport services across the Beijing Olympic Village, Yanqing Olympic Village and Zhangjiakou Olympic Village. TA transport services connect the Olympic Villages in three zones.

Transfer of Equipment from/to Olympic Village

Service Time

A total of 55 days of service is provided, which starts on January 21, 2022 (14 days before the Opening Ceremony of the Olympic Winter Games Beijing 2022) and ends on March 16, 2022 (3 days after the Closing Ceremony of the Beijing 2022 Paralympic Winter Games).

Scope of Service

The transfer of sports equipment between airports and venues as well as between venues is covered by our service.

Transfer of Sports Equipment from Airports to Olympic Village

Upon arrival, if Athletes and Team Officials have sports equipment that is to be transferred directly from airports to Olympic Village, they are to consign their equipment to Beijing 2022 baggage delivery team at designated Baggage Claim and Delivery Area. Beijing 2022 baggage delivery team will check the baggage, confirm such related information with the NOC, baggage quantities and destinations, tag the baggage, and issue a consignment receipt. After consignment, Beijing 2022 logistics trucks will deliver these consigned sports equipment to Remote Material Screening Site (RMSS) for security checks, where all problem baggage will be temporarily stored until problems are solved by NOC representatives arriving afterwards, and the rest of the baggage will be delivered to their respective venues for a sports equipment handover process with consignment receipts.

Transfer of Sports Equipment Between Venues

Transfer of sports equipment between venues is prearranged according to competition schedule. Any additional equipment transfer needs to have advance reservation at logistics service desks of NOC Service Center in the Olympic Villages before 10 a.m., the previous day.

Transfer of Sports Equipment from Venues to Airports

Upon departure, sports equipment to be delivered directly from venues to airports needs to have advance reservation (specific time to be determined) at logistics service desks of NOC Service Center in the Olympic Villages. Beijing 2022 baggage delivery team will arrive at appointed time for baggage consignment. They will check the baggage, confirm such information with the NOC, corresponding flights and baggage quantities, tag the baggage, and issue a consignment receipt. With the consignment receipt, Athletes and Team Officials can claim their consigned sports equipment from Beijing 2022 baggage delivery team at designated baggage storage area (specific location to be determined).

Radio Frequency – Spectrum Management

During the Beijing 2022 Olympic and Paralympic Winter Games, all NOC users (including teams and athletes) planning to use radio equipment in the Olympic venues and special control areas, shall register and submit frequency applications in the Spectrum Order Portal (SOP, https://spectrum.beijing2022.cn) by December 31, 2021. Once an application has been reviewed and approved, the Radio Equipment Frequency License will be issued by the Ministry of Industry and Information Technology of the People's Republic of China to the user. Frequency must be used in accordance with the requirements indicated on the frequency license. All users are encouraged to apply early due to the limited availability of radio resources within the venues. The approval rate is higher in the normal period of frequency application (from January 1 to June 15, 2021).

Period	Order Period	Frequency Approval Period	Description
Normal Period	January 1-June 15, 2021	Before October 15, 2021	Strongly recommend users to apply in this period. Spectrum applications received during this period will be processed for batch approval without prioritizing the time of application.
Cut-off	June 16-30, 2021		Data review
Late Period	July 1-November 30, 2021	Before January 15, 2022	The application process is based on first-come-first-served basis and there is no guarantee that the frequency of applications will be approved.
Cut-off	December 1-31, 2021		Data review
Extraordinary Application Period (Games time)	January 1-March 13, 2022	Games-time	Only spectrum requests under urgent circumstances will be eligible. Availability is low.

Testing and Tagging

After arriving in China, NOC users who have obtained the frequency license are required to take their radio equipment to the designated locations for testing by the technical agency designated by Beijing 2022. The agency staff will test the radio frequency parameters of the equipment to ensure that it matches the specifications outlined in the frequency license, and pasted a Special Tag for the equipment that passes the tests. Then, the radio equipment can be used strictly following the time and area requirements indicated on the Special Tag. The specific time and location for testing and tagging will be published on the SOP. **Equipment Inspections at Venue Entry**

All radio transmitting equipment shall be inspected for authorisation by security staff before entering the venues. Equipment without the Special Tag will not be allowed into the venues (except for the equipment exempted from testing and tagging specified in Section 4.1 of the Spectrum Management Plan). In order to avoid delay for entry, please make sure to complete the testing and tagging process before arriving at the venue entrance.

Interference

Radio monitoring will be conducted to identify and prevent interference and illegal use of unlicensed frequencies. In case of radio interference, please inform the venue staff in time and cooperate to identify and eliminate the interference. Meanwhile, it should also be emphasized that users shall avoid the unauthorised use of radio spectrum.

For more details, please refer to **the Spectrum Management Plan for the Beijing 2022 Olympic and Paralympic Winter Games** published on the official website of Beijing 2022.

Special note1: Cameras with wireless transmission modules (including 2.4GHz and 5.8GHz bands) should be regarded as "Wireless Camera". Users shall submit frequency applications for those cameras, obtain the frequency licenses and have them tested and pasted with a Special Tag before entering the venues.

Special note2: Frequency applications are needed for using wireless routers and other radio transmitting equipment to set up WLAN access point (AP) in the venues. Those equipment can only be brought into the venues after they are issued a frequency license, tested by the designated agency and pasted a Special Tag. Except for special requirement, it is strongly recommended that users access WLAN network provided by Beijing 2022 or by public mobile communication

operators, and the frequency applications for private WLAN APs or hotspots may not be approved.

Special note3: After entering the Olympic venues and special control areas, public mobile communication terminals (mobile phones), wireless internet cards, laptops, and tablet computers shall not be used as wireless LAN hotspots; the Bluetooth function of wearable smart devices such as public mobile communication terminals (mobile phones), camera wireless remote-control devices, smart watches, smart bracelets, Bluetooth headsets, etc. shall be switched off.

Interpretation Services

Beijing 2022 provides volunteer interpretation services for athletes' interviews at the Mixed Zone in the competition venues. Volunteer interpretation services in English will be provided upon request at the Doping Control Stations and Medical Stations, and over-the-phone interpretation in selected languages will be available via My 2022 App.

Professional interpreters provide interpretation services for official press conferences at the Main Media Centre, medal-round press conferences at the competition venues, IOC meetings, Chefs de Mission meetings either in consecutive or simultaneous modes depending on the demands and availability. Professional interpretation covers Chinese, French, Italian, German, Russian, Japanese and Korean using English as the pivot language. Volunteer interpretation, on the other hand, will utilise Chinese as the pivot language. The languages provided through both volunteers and professional interpreters vary by locations and clients and will be determined daily by Beijing 2022 Language Services taking into account the needs of key Olympic stakeholders and other Beijing 2022 Functional Areas.

Doping Control

General Principles

Beijing 2022 is committed to implement the doping control programme with high standard and quality. Under the direction of International Testing Agency (ITA) authorized by IOC, Beijing 2022 will ensure the doping control programme compliant with the World Anti-Doping Code so as to protect clean sports, clean athletes and athletes' right.

The International Testing Agency will develop the Test Distribution Plan and sign protocol with each IF. Samples of doping control will be analyzed according to the 2022 Prohibited List of the World Anti-Doping Agency (WADA) in WADA accredited anti-doping laboratory.

During the Olympic Winter Games, Doping Control Stations will be operating at all competition venues, 3 Olympic Villages and Medals Plazas. Doping Control Stations in the Olympic Villages are close to the Polyclinics.

Beijing 2022's testings start from the opening of the Olympic Village on January 27, 2022 until the closing ceremony on February 20, 2022. Urine and/or blood samples will be collected. Testings include In-Competition and Out-Of-Competition. In-Competition means the period commencing at 11:59 p.m. on the day before a competition in which the athlete is scheduled to participate through the end of such Competition and the sample collection process related to such competition. Out-Of-Competition means anytime that is not In-Competition. Out-Of-Competition testings start on the opening day of the Olympic Village and take place in the Doping Control Station in the Olympic Villages. If an athlete resides outside the Olympic Village, Out-Of-Competition testings may be implemented in the athlete's residence. What's more, some Out-Of-Competition testings may happen in the training venues. In-Competition testings often take place in the Doping Control Stations in competition venues. Athletes receive testings after their competitions. During the Games-time, Doping Control Command Centers will be set up to manage the operation of Doping Control Stations in the Olympic Villages, competition venues and Medals Plazas in 3 competition zones, and report technical issues directly to the ITA.

NOCs are encouraged to conduct anti-doping education sessions with their athletes, athlete support personnel and medical personnel prior to the Games.

NOCs are also encouraged to work with their National Anti-Doping Organization (NADO) and Regional Anti-Doping Organization (RADO) to ensure athletes are tested regularly, out-of-competition prior to the commencement of the Games.

Games-time Operations

Transport after doping control

Beijing 2022 will provide transportation for Athletes and NOC representatives who have undergone doping control from the competition venues to Olympic Villages (including non-shuttle bus hours).

If an athlete resides outside the Olympic Village, NOCs will be the one who is responsible to provide transportation bringing the athlete back to the accommodation.

Victory Ceremony for Athletes who have not completed doping control

If the medalist needs to participate the Victory Ceremony at the Medals Plaza and cannot complete the doping control process at the venue in sufficient time before the Victory Ceremony, he or she will be accompanied by a chaperon or a Doping Control Officer to complete the doping control process in the Doping Control Station at the Medals Plaza.

Interpreters during doping control process

Beijing 2022 will recruit local Doping Control Officers capable of communicating in English and international Doping Control Officers with multiple language skills to meet the language demand for doping control.

Athletes can also bring their designated interpreters, only one interpreter per athlete could have access to the Doping Control Station. The interpreter is allowed to participate the whole Doping Control process except for witnessing the urine sample provision.

In addition, Beijing 2022 can also provide on-site translation services or telephone interpretation services through the game's multilingual call centre when necessary.

Doping control under COVID-19

Beijing 2022 will formulate relevant countermeasures for doping control according to the actual situation of COVID-19 and the policies of IOC, ITA, WADA and Beijing 2022, and implement testings according to WADA's Guidance for Testing During COVID-19 Pandemic.

Safety

Safety Concerns

If you encounter safety threats when you are working or participating in activities in Beijing 2022 venues or facilities, please keep the following tips in mind which will be helpful.

- Please take care of your personal identification documents and carry them with you all the time.
- Please show your OIAC at the pass check points and have your personal belongings checked in accordance with the requirements of security screening. You must make sure that no prohibited or restricted item be brought into the venues.
- Dial these numbers when you need help: 110 (police), 119 (fire department), 120 (medical service).
- In case of safety threats, please stop your activities immediately. Do not panic. Please approach any Beijing 2022 staff/security personnel inside the venues or facilities and request their assistance.

Emergency Services

Contingency plans and evacuation procedures have been formulated for each venue of the Beijing 2022 Games in advance, and in case of emergency, the venue team will implement the plans and procedures as planned. What you need to do is to:

- Keep calm and take care of yourself. Choose a safe path to leave the dangerous area.
- Do exactly as you are told by the security personnel or professionals dealing with the emergency.
- Do not gather at the scene of emergency. Do not enter the dangerous area.
- Do not attempt emergency rescue if you have not received professional training.
- In case of any emergency, please approach any Beijing 2022 staff/security personnel inside the venues or facilities to request emergency assistance.
 You can also directly dial 110 (police), 119 (fire department) and 120 (medical service) to request help.

Security

A unified security coordination and command authority will be established at the national level for the Beijing 2022 Games to ensure the safety and harmony of the Beijing 2022 Games as supported by carefully designed security plans, sufficient human resources, sophisticated equipment and facilities, and efficient working mechanisms.

Access Control to Competition and Non-Competition Venues

Ticket and pass check points, pedestrian and vehicle security screening points will be set at the entry of the venue perimeter. To access the locked-down venues, all pedestrians must present valid tickets and passes and vehicles must present valid passes. The pedestrians and vehicles must go through ticket and/or pass check and security screening before they can enter the perimeter.

Venue Security Perimeters

24-hour security will be provided for competition venues, non-competition venues (excluding airports), and training venues. Pedestrian and vehicle security screening points will be set at the entry of the venue perimeter. To access the locked-down venues, all pedestrians must present valid tickets and passes and vehicles must present valid passes. The pedestrians and vehicles must go through ticket and/or pass check and security screening before they can enter the perimeter. The perimeter of a competition venue is divided into the front yard and the back yard, with the pedestrian and vehicle flows respectively created for different client groups. Security personnel are in place within the perimeters to provide security services for various client groups.

Multiple venues located within the same perimeter form a cluster that will be provided with 24-hour security. For venue clusters such as the venue cluster of Beijing Olympic Park Center Zone, the Capital Stadium Cluster, the venue cluster in Yanqing Competition Zone, the Genting Snow Park Cluster and Guyangshu Cluster, pedestrian and vehicle security screening points will be set at the entry of the cluster perimeter. To access venues in the cluster, all pedestrians must present valid tickets and passes and vehicles must present valid passes. The pedestrians and vehicles must go through ticket and/or pass check and security screening before they can enter the cluster perimeter. Then at each venue within the cluster perimeter, only tickets and passes will be checked and security screening will not be conducted anymore.

Transport and Security

The delegations will be provided with the "clean-to-clean" transport service between the Village Transport and the competition/training venues, which means that the bus that reaches the venue or Village will directly enter the venue security perimeter or Village Transport via the fast check channel (e.g. Express Entry) to park and drop off passengers.

Medical Services

General Aspects

Under the supervision of the Medical Commission of the International Olympic Committee (IOC MC), and in accordance with the stipulation of the *Olympic Charter*, Beijing 2022 has developed a comprehensive and integrated healthcare programme for all constituents of the Olympic Games.

Medical services will be provided in the following:

- Athlete Medical Stations at all competition and training venues, arranged in accordance with the IOC requirements and each International Federation's (IF) requirements.
- Polyclinics in the Beijing Olympic Village, the Yanqing Olympic Village and the Zhangjiakou Olympic Village.
- · Designated hospitals for athletes and Olympic Family Members.
- Medical facilities accessible for spectators, Olympic Family Members, ticketed spectators, media and the workforce at all competition venues and non-competition venues.

Medical Services at the Venues

Beijing 2022 will provide medical services at all competition, training and official non-competition venues in accordance with the relevant IFs.

Venue medical services consist of Athlete Medical Stations, Field of Play (FOP) Medical Stations, Spectator Medical Stations. Each venue will be covered by Emergency Medical Services. In the Yanqing National Alpine Skiing Centre (YAS), there are 22 FOP Medical Stations, 3 Athlete Medical Stations, 2 Spectator Medical Stations and 8 ambulances.

Athletes injured on the FOP will be evaluated on-site by professional medical workers depending on the venue and according to the relevant IFs requirements. If necessary, the athlete will be evacuated from the FOP and transported to the Athlete Medical Station, designated hospitals or other facilities, as appropriate. Helicopter Emergency Medical Services will be available when required by the IFs rules.

NOC medical personnel are advised to attend a meeting with the relevant venue medical officer/venue medical supervisor during the first few days of the official training to establish the procedures, roles and responsibilities of the personnel.

Polyclinics

Polyclinics will be located in the Residential Zone of each Village, and will offer medical services to accredited Athletes and Team Officials from January 27 to February 23, 2022. Services will be limited during the Villages' pre-opening period from January 23 to 26, and from February 23 to 25, 2022.

The Olympic Village Polyclinics will offer the following services 24 hours a day: emergency services, laboratory and pharmacy.

During the time from 07:00 to 23:00, Polyclinic will work as a medical facility and provide Internal medicine (cardiology, neurology, pulmonology, gastroenterology, endocrinology, nephrology), Surgery (orthopedics, neurosurgery, general surgery), gynaecology, rehabilitation, physiotherapy and traditional Chinese Medicine upon request.

Olympic Hospitals

If a patient requires in-patient treatment or any services above and beyond that which is provided in the Athlete Medical Stations or Polyclinics, he/she will be transferred by ambulance to the nearest designated hospital. A total of 41 designated hospitals have been identified in Beijing 2022 to provide

diagnosis and treatment services for all kinds of Olympic stakeholders.

Emergency Medical Services and Transport

During the Games, Beijing 2022 will coordinate all emergency transport services. The venue Medical Officer will be responsible for choosing the type of transport needed, depending on the type of injury or illness, weather and road conditions and the proximity to the hospitals.

All ambulances are staffed by two paramedics and equipped with emergency rescue equipment. Spare vehicles will be provided at each Medical Station to ensure that vehicles dispatched from the site could be replaced in a timely manner. The integrated dispatch center will coordinate the positioning and rotation of other ambulances if necessary.

Ambulances dedicated to Olympic venues will not be used for medical services outside such venues, except when local healthcare resources are not sufficient enough to handle mass casualties in the event of an accident or a natural disaster.

Interpretation Services

All individuals needing medical assistance have access to interpretation services at all Olympic venues.

Public Health

Public health services including, but not limited to, disease surveillance, communicable disease control, emergency health management and hygiene management will be in place throughout the regions where the Games are being held. Consistent public health surveillance will include the monitoring of infectious and communicable diseases, regular sanitary inspections and testing for water and air quality control. A healthy lifestyle promotion and no-smoking policy programme will be in place.

The Olympic Winter Games Beijing 2022 will be a smoking-free Games. Smoking and tobacco consumption in any form, including e-cigarettes, will be prohibited within all venues of Beijing 2022.

Ceremonies

Opening and Closing Ceremonies

The Opening Ceremony will be held on February 4, 2022 and the Closing Ceremony on February 20, 2022. Both ceremonies will take place at the National Stadium in the Beijing Olympic Green. The National Stadium has a roof, but it's not completely covered. The average daily temperature and daily air velocity in Beijing Olympic Green during the Opening and Closing Ceremonies in February are as follow:

	Opening Ceremony	Closing Ceremony
Average Daily Temperature	-0.3°C	2.8°C
Average Daily Air Velocity	1.8m/s	1.4m/s

Victory Ceremonies

Please refer to the Victory Ceremonies Schedule and the Competition Schedule at the end of this manual for current information on the dates, times and locations of the Beijing 2022 Venue and Victory Ceremonies.

The venue broadcasting of Victory Ceremony will be in English, French and Chinese.

Victory Ceremonies

Victory Ceremonies will take place in the competition venue, immediately following the completion of the medal event. Medalists will receive a medal and a gift. The flags of the medalists will be raised, and the gold medal team's national anthem will be played.

Medal Boxes and Diplomas

The Medal Box of the Medalists and the Diplomas of the top eight winning athletes will be sent to the NOC Service Centre of the Olympic Villages in 24 hours after the Victory Ceremony every day. NOCs can collect them in the NOC Service Centre.

Mixed Zone and Press Conferences

General Principles for Interview Facilities

The OCOG provides designated areas at all competition venues and the Olympic Village in which media organisations may interview Athletes and Officials. At each competition venue these interview facilities include a Mixed Zone in which athletes may be interviewed as soon as they leave the FOP. A press conference area is also available at each competition venue and the Olympic Village. The location and smooth running of these facilities is an important element in the success of the Games coverage.

IFs and NOCs provide all the necessary assistance to the IOC, the OCOG and OBS in the mutual interests of all the partners concerned.

The final location, layout, policies and procedures for the management and operation of all Mixed Zones are agreed by OBS and Press Operations in cooperation with Sport and the Venue Media Team and approved by the IOC.

Mixed Zone Operations

Mixed Zone General Principles

- \cdot An effective Mixed Zone is vital in providing Games-time operations for athletes and the media.
- In the Mixed Zone, the media are expected to be courteous to athletes experiencing extremes of emotion or fatigue following their competitions, while the athletes are expected to respect that the media have an important role to play in publicising their achievements and their sport.
- All athletes must pass through the Mixed Zone when leaving the Field of Play.
 They are encouraged to participate in interviews, however they are not obliged to answer questions or participate in interviews if they do not wish to do so.
 Athletes must keep two metres from the Media at all times in the mixed zone.
- Mixed Zone will be operational during all training sessions in the competition venues. The practice venues will operate under the same rules as during the competitions, that is, athletes must leave the Field of Play through the Mixed Zone but are not obliged to talk with the media.
- The IOC requests that the Beijing 2022 Organizing Committee, IFs and NOCs provide all the necessary assistance to ensure the smooth operation of the Mixed Zone.

Mixed Zone Management

- Beijing 2022 Sport FA is responsible for escorting athletes from the Field of Play to the entrance of the broadcast Mixed Zone, but not through the Mixed Zone.
- \cdot OBS and Press Operations are responsible for escorting athletes through their respective sections of the Mixed Zone.
- OBS is responsible for the Rights Holding Broadcasters' section of the Mixed Zone. Beijing 2022 Press Operations is responsible for the Press section of the Mixed Zone.
- Only those with an operational role in the Mixed Zone i.e., competing athletes, media, OBS, Mixed Zone supervisors, doping control, OIS flash quote reporters, IOC media operations, registered NOC press attachés and others are permitted into their respective areas of the Mixed Zone.
- Coaches of non-team sports, managers and/or individual athletes' agents, security, and volunteers are not permitted in any area of the Mixed Zone.

Press Conferences Operations

Press Conferences

After each final event the medalists attend a venue press conference. Coaches and/or other athletes may also attend press conferences as circumstances dictate.

- Press Operations staff are responsible for conducting all press conferences at the competition venues. The press conference should occur as soon as possible after the end of the competition to help the media to meet their deadlines. This should not, however, interfere with normal Mixed Zone operations and timing should be adjusted accordingly to ensure this.
- Additional sports press conferences may be held at other times during the competitions at the discretion of the venue press manager and the NOC and/or IF media officer, who will jointly decide which athletes and coaches should attend.
- Professional interpretation services (simultaneous or consecutive) are provided for all press conferences.

Policy for COVID-19 Countermeasures

The Beijing 2022 Playbook is the basis of the game plan to ensure that all Olympic Winter Games participants and the people of China stay safe and healthy for the Games. It has been developed jointly by the Beijing 2022 and the IOC in close collaboration with the Chinese Government and relevant authorities. Please refer to the Version 2 of *The Beijing 2022 Playbook* published on the official website of Beijing 2022 to acknowledge detailed policy on the Principles and COVID-19 Countermeasures for the Athletes and Team Officials: https://www.beijing2022.cn/sv1/wog.html?cmsid=20211213005851

The Competition Continuity Contingency Plan will be updated to NOCs when confirmed by the IOC.

From 24 January 2022 23:59 Beijing time (GMT+8) and up to relevant

sport/discipline/event Technical Meeting/first Team Captains' Meeting for the related

Athletes and National Olympic Committee delegations (NOC), International Olympic

This policy applies to athletes of NOCs attending the Olympic Winter Games Beijing 2022. The deadline for the Final Entries list of participating athletes in the Olympic Winter

Games Beijing 2022 (sport entries deadline) is 24 January 2022 23:59 Beijing time

After the sport entries deadline, where there are medical conditions preventing

participation of an athlete, proven Anti-Doping Rule Violation (ADRV), a positive COVID-

19 test, isolation or quarantine due to a COVID-19 infection or other exceptional reasons

the IOC, after consultation with the relevant IF and IOC medical experts (when deemed

appropriate by the IOC), may authorise a permanent replacement of an athlete by

another athlete only in the same sport and discipline and event. Late Athlete

Replacement may only occur up to the relevant sport/discipline/event Technical

Meeting/first Team Captains' Meeting for the related discipline, unless otherwise stated in

This policy is only applicable for those sports/disciplines where the quota place has been

(i) The replacement athlete meets the eligibility conditions and qualification criteria to

(ii) The replacement athlete has adhered to all guidelines regarding COVID 19

the IOC Extranet for NOCs, in the Games Preparation section;

take part in the Olympic Winter Games Beijing 2022, as stipulated in the

"Qualification System for XXIV Olympic Winter Games, Beijing2022", per sport/disciplines published in 2019, and regularly updated by the IOC on NOCnet,

(iii) The NOC of the replacement athlete had applied successfully for accreditation for the athlete prior to the application deadline, and thus, the replacement athlete has been registered by Beijing 2022 in the "NOC's Athlete Accreditation Long List"; and (iv) No doping control issues are pending concerning the replacement athlete.

In addition, the steps outlined below must be followed and the required forms submitted within the timeframe stated in this policy:

- (v) The "Late Athlete Replacement Form" and "Sport Entry Form" must be completed and a valid medical certificate and supporting document for the replaced athlete must be submitted by the relevant NOC, for the athlete being replaced and the replacement athlete using the e-LAR tool in the Sport Entries System (SEQ);
- (vi) The "Conditions of Participation" including the "Parental/Legal Guardian Acknowledgement of Consent for Minors" form (if applicable) must be completed and submitted by the relevant NOC for the replacement athlete. The NOC must submit a scanned copy of the "Conditions of Participation" electronically and bring the original, signed and stamped to the Accreditation Centre in the Olympic Village Team Processing Centre.

The IOC and the relevant IF may make an LAR, subject to their joint consent and at their discretion

The latest a LAR may occur and must be completed is no later than the first Technica Meeting/Team Captains' Meeting for the respective sport/discipline. This is subject to the deadlines outlined in the DSI (see Annex).

Alternate athletes (Ap)

As per the "Accreditation at the Olympic Games - Detailed specifications" NOCs car activate an alternate athlete (Ap) in the following discipline: Bobsleigh.

The Ap athlete needs to be identified at the time of the Delegation Registration Meeting (DRM) but an NOC can replace the athlete prior to the deadline of Bobsleigh, set out in the DSI. Before the sport-specific deadlines set in the LAR procedures, the NOCs also have the

possibility to activate their alternate athletes or to use a replacement from the long list and be in a position to appoint another Ap athlete.

Once competition has started, the activation of the Ap athlete has to follow the e-LAR process as above and according to the process stipulated in the LAR procedures

All documentation and queries regarding the LAR should be addressed to Beijing 2022 Sports Entries through the e-LAR tool or in person at the Sport Entries Office in the Beijing Olympic Village Team Processing Centre

Applications with missing information will not be processed

This policy is subject to further change by the IOC for exceptional circumstances.
