1.12. Doping Control

During the EG2023, an extensive Anti-Doping Control Program will be implemented. In total, 1,200 urine and blood samples are going to be collected,

which means that statistically around 17% of Athletes present at the Games will be subjected to doping control. Tests will be carried out in-competition and out-of-competition. The Anti-Doping Program will be managed under the auspices of the International Testing Agency (ITA). Analyses of samples collected during the Games will be carried out in a laboratory accredited by the World Anti-Doping Agency (WADA). In order to ensure high quality, the work of anti-doping controllers will be evaluated by an international team of independent observers appointed by the World Anti-Doping Agency.

If any Athlete is chosen for Doping Control, he/she will be escorted through the Broadcast Mixed Zone by a Doping Control Officer or Doping Control Chaperone and will then be chaperoned to the Doping Control Station.

Where the Athlete already has a TUE granted by their National Anti-Doping Organization or International Federation for the substance or method in question and provided that such TUE has been reported in accordance with Article 5.5 of the International Standard for Therapeutic Use Exemptions, EOC will automatically recognize it for purposes of the EG2023 without the need to review the relevant clinical information.

In cases of emergency related to the need to use medicine which contains prohibited substances or methods considered as prohibited for medical purposes during the EG2023, please contact the ITA with a request for further instructions. The ITA is the organization that, on behalf of the EOC, is responsible for the review of TUEs during the EG2023.

EOC Anti-Doping Rules are applicable to all athletes competing at the EG2023. All NOCs, Athletes, Athlete Support Personnel and Medical Personnel should be familiar with the EOC Anti-Doping Rules as they cover the applicable procedures for Therapeutic Use Exemptions (TUEs) and athlete whereabouts. The EOC Anti-Doping Rules are available at

<https://www.eurolympic.org/wp-content/uploads/2019/01/2021-EOC-Anti-Doping-Rules.pdf>.

Doping Control

Athletes selected for doping control will be notified in person and escorted to the Doping Control Station by a Doping Control Chaperone as soon as possible after the former have finished competing. It is the responsibility of the Athlete to remain under continuous observation of the Doping Control Chaperone after notification. The notified Athlete may invite a team representative or team doctor to the Doping Control Station along with them.

During doping control, competitors will be instructed by the doping control officer about the procedure and rights and obligations related to the control. All tests should be carried out without advanced notice, the athlete should be the first person to be informed about the selection for doping control. During doping control, athletes should report what medicines they have used in the last 7 days and should submit their comments on the testing process.

Broadcast Mixed Zone and Flash-Zone

All the Athletes must exit FoP via the Mixed Zone.

After the competition or Medal Ceremony, all the Athletes will be guided through the Mixed Zone as they leave FoP, but they are not obliged to speak. Volunteers will take care of the interview time in each section of the Mixed Zone. Team Coaches who are normally positioned on FoP may also be asked to pass through the Mixed Zone for interview possibilities.

After passing through the Mixed Zone, Athletes will be free to return to the Changing Room or go to Medical/Doping procedures unless they are requested for interviews in the Interview Zone (outside the Mixed Zone) or press conference.

Journalists wanting to interview someone would make a request to Press Operations Volunteers who will escort the athlete. By default, all three medalists and all Polish Athletes will be accompanied by volunteers for interviews. Press Attaches, DCOs, and LANS Team members will be able to escort Athletes into the Mixed Zone if needed. Once in the Mixed Zone, the Athlete would be interviewed by the member of the press who requested the interview.

There will be a time limit for the interviews that will be clearly explained by the volunteer before the start of the interview. The volunteer has the right to interrupt the interview if it significantly exceeds the time. There will be no guarantee that it

would be exclusive, meaning one (1) or two (2) journalists might want to interview the same Athlete.

The Mixed Zone will be managed by Press Operations Volunteers to help facilitate introductions or questions and ensure the Interview Zone remains an informal area and that no media 'scrum' is created.

All the medalists will be asked to attend a short press conference after the Medal Ceremony and pass through the Mixed Zone. Volunteers or Press Operations representatives will make their way to the official transport which will take them to City or Main Press Centre. After the press conference, athletes will not come back to the FoP.

Following a competition in the direct elimination phase or Medal Ceremony all athletes will pass through the Broadcast Mixed Zone as they leave the field of play, but are not obliged to speak. Coaches may also be asked to pass through the Broadcast Mixed Zone for the interview possibilities. After passing through Mixed Zone athletes will be free to return to changing room or go to Medical/Doping.
