During the EG2023, an extensive Anti-Doping Control Program will be implemented. Tests will be carried out in-competition and out-of-competition. The Anti-Doping Program will be managed under the auspices of the International Testing Agency (ITA). Analyses of samples collected during the Games will be carried out in a laboratory accredited by the World Anti-Doping Agency (WADA). In order to ensure high quality, the work of anti-doping controllers will be evaluated by an international team of independent observers appointed by the World Anti-Doping Agency.

If any Athlete is chosen for Doping Control, he/she will be escorted through the Broadcast Mixed Zone by a Doping Control Officer or Doping Control Chaperone and will then be chaperoned to the Doping Control Station.

Where the Athlete already has a TUE granted by their National Anti-Doping Organization or International Federation for the substance or method in question and provided that such TUE has been reported in accordance with Article 5.5 of the International Standard for Therapeutic Use Exemptions, EOC will automatically recognize it for purposes of the EG2023 without the need to review the relevant clinical information.

In cases of emergency related to the need to use medicine which contains prohibited substances or methods considered as prohibited for medical purposes during the EG2023, please contact the ITA with a request for further instructions. The ITA is the organization that, on behalf of the EOC, is responsible for the review of TUEs during the EG2023.

EOC Anti-Doping Rules are applicable to all Athletes competing at the EG2023. All NOCs, Athletes, Athlete Support Personnel and Medical Personnel should be familiar with the EOC Anti-Doping Rules as they cover the applicable procedures for Therapeutic Use Exemptions (TUEs) and athlete whereabouts. The EOC Anti-Doping Rules are available at <https://www.eurolympic.org/wp-content/uploads/2019/01/2021-EOC-Anti-Doping-Rules.pdf>.
